

Maschinenfabrik Bernard Krone GmbH & Co. KG

About this organisation

Machine translation

This organisation has been machine-translated based on data provided in German.

As a responsible manufacturer of agricultural machinery and commercial vehicles, we see ourselves as an innovative service provider for our customers. Whether farmer, machinery ring or contractor - we have the right machine for the forage harvest for everyone. We are just as versatile in the commercial vehicle sector: from long lorries and (refrigerated) trailers to cargo bikes, we offer professional solutions for all transport tasks.

In the field of lightweight construction, Maschinenfabrik Bernard Krone GmbH & Co. KG is a co-operation partner in the "Agrilight" research project. The expertise in this joint project lies in the area of validation with the corresponding test benches in the "KRONE Future Lab" validation centre at the site in Lingen / Ems. In future, the durability of the lightweight frame, which is made from fibre composite materials, will be tested at this site.
