

Profilm Metall Engineering GmbH

About this organisation

Machine translation

This organisation has been machine-translated based on data provided in German.

Profilm Metall Engineering GmbH is a medium-sized company based in Marktheidenfeld near Würzburg. As a special machine construction company, its core competences lie in the roll forming of metal profiles and the associated plant construction. In addition to roll forming technology consulting, the portfolio is complemented by a wide range of technologies.

Roll forming can also be used to form high-strength and ultra-high-strength materials within narrow tolerance ranges. The resulting semi-finished products are used in many applications relevant to lightweight construction. The component properties are produced in their best possible form using the cold forming process and material savings are often possible compared to extruded components, for example.

Dillberg 22
97828 Marktheidenfeld
Bavaria
Germany
www.profilmetall-engineering.de/

Main areas covered Roll forming of high-strength materials, Forming technology Plant engineering, Production facilities, Roll forming, punching, bending, Forming simulation and engineering

Infrastructure

Certifications

Keywords Profiling, Roll moulds, Punching, cutting, Welding of profiles, Embossing, bending

Memberships EFB, FOSTA

Organisation type

Small or medium-sized enterprise

Sectors

Employees

10 up to 49

Turnover

€2m - €10m

Funding

Profilmetall Engineering GmbH

Overview of lightweighting expertise

Machine translation

This organisation has been machine-translated based on data provided in German.

	Research	Development	Manufacturing & Supply
Offer			
Products Semi-finished parts, Machines and plants, Tools and moulds		✓	✓
<i>Services & consulting</i>			
Field of technology			
<i>Design & layout</i>			
Functional integration Actuator technology		✓	✓
<i>Measuring and testing technology</i>			
Modelling and simulation Loads & stress, Processes, Materials	✓	✓	
Plant construction & automation Plant construction	✓	✓	✓
<i>Recycling technologies</i>
