### Carbon Minds GmbH

### Carbon Minds GmbH

## About this organisation

Carbon Minds is a data analytics startup. We use our proprietary digital model of the global chemicals and plastics industry to offer our clients unprecedented levels of transparency about environmental impacts in global supply chains.

We bring down the cost of reaching climate targets by providing market intelligence that enables our clients to reduce their environmental impacts in the most costefficient way possible through the choice of suppliers. Our data covers thousands of suppliers, accounting for more than 80 % of the global greenhouse gas emissions due to chemicals and plastics production. In addition to providing data, Carbon Minds builds digital twins of complex integrated production sites and uses novel optimization approaches to identify cost-efficient transition pathways. As part of a project funded by the BMWi, we are using our digital model of the global chemical and plastics industry to support the development of ecologically beneficial polymers for use in resource-efficient lightweight construction.

Eupener Str. 165 5093 Köln North Rhine-Westphalia Germany ☑ www.carbon-minds.com

### Organisation type

Small or medium-sized enterprise

#### Sectors

No specific sector

#### **Employees**

10 up to 49

#### Turnover

n/a

**Funding** 

COVERCE	enemistry, Bigital twins of chem. production
Main areas covered	Life Cycle Data for chemicals, Life Cycle Data for plastics, Market intelligence in chemistry, Digital twins of chem. production

#### Certifications

### **Keywords**

#### Memberships
