

## About this organisation

### Machine translation

This organisation has been machine-translated based on data provided in German.

We manufacture high-quality plastic parts in large quantities using modern injection moulding techniques and complex assembly processes. If required, we integrate electromechanical components and functional plastics in order to be able to respond to customer requirements in the best possible way. The consistently high product quality is the result of many years of experience with the strict safety and quality requirements in the automotive sector.

Sensors & switches Power distribution & fuse protection  
Connectors Battery components & structural elements

Hugo-Küttner-Str. 8  
01796 Pirna  
Saxony  
Germany

# FEP

### Organisation type

Large enterprises

### Sector

### Employees

250 up to 499

### Turnover

More than €50m

### Funding

n/a

# Fahrzeugelektrik Pirna GmbH & Co. KG

## About this organisation

**Main areas covered** Plastic injection moulding, Assembly technology, Wiring system components, Structural elements, Metal-plastic hybrids

### Infrastructure

### Certifications

**Keywords** Spray train, Plastics processing, Assembly technology, Wiring system, Electrics

### Memberships

## Overview of lightweighting expertise

### Machine translation

This organisation has been machine-translated based on data provided in German.

	Research	Development	Manufacturing & Supply
<b>Offer</b>			
<b>Products</b> Parts and components, Tools and moulds		✓	✓
<i>Services &amp; consulting</i>			
<b>Field of technology</b>			
<i>Design &amp; layout</i>			
<b>Functional integration</b> Material functionalisation		✓	✓
<i>Measuring and testing technology</i>			
<b>Modelling and simulation</b> Multiphysics simulation		✓	
<i>Plant construction &amp; automation</i>			
<i>Recycling technologies</i>
