

About this organisation

Machine translation

This organisation has been machine-translated based on data provided in German.

BEC ROBOTICS is a leading global technology company focussing on human-robot collaboration in the medical, entertainment and industrial sectors. We have been manufacturing customised robotic solutions and developing our own products for over 20 years.

We think outside the box and look at challenges from different angles to find the best solutions for our customers. The expertise of our TEC families complements each other and creates valuable synergy effects. Our team of talented employees is innovative and thinks creatively to develop safe and intelligent robot applications for global projects and customers. We emphasise innovation, commitment, openness, responsibility and appreciation to promote a dynamic and ethical corporate culture and ensure sustainable success.

Marktstr.191
72793 Baden-Württemberg - Pfullingen
