

MSG Maschinenbau GmbH

Special machine construction Measurement technology

About this organisation

Machine translation

This organisation has been machine-translated based on data provided in German.

Special machine construction and measurement technology in the manufacturing industry

Construction of special systems, especially for aluminium processing companies Special measuring techniques for the geometry measurement of components

Hünegräben 17a
57392 Schmallenberg
North Rhine-Westphalia
Germany
www.msg-maschinenbau.de

Organisation type

Small or medium-sized enterprise

Sectors

Others: Sondermaschinenbau
Messtechnik

Employees

10 up to 49

Turnover

€2m - €10m

Funding

Main areas covered

Special machine construction Measurement technology

Infrastructure

Certifications

DIN EN ISO 9001, DIN EN 1090, DIN EN ISO 3834

Keywords

Measurement technology, Special machine construction

Memberships

Overview of lightweighting expertise

Machine translation

This organisation has been machine-translated based on data provided in German.

	Research	Development	Manufacturing & Supply
Offer			
Products Machines and plants, Systems and end products			✓
Services & consulting Engineering, Prototyping, Maintenance and repair			✓
Field of technology			
Design & layout Others (Machines and systems for production)		✓	✓
Functional integration Actuator technology, Media conductivity, Sensor technology		✓	✓
Measuring and testing technology Component and part analysis, Destructive analysis, Others (Geometry measurement)		✓	✓
Modelling and simulation Optimisation, Processes			✓
Plant construction & automation Plant construction, Automation technology, Handling technology			✓
<i>Recycling technologies</i>			

Overview of lightweighting expertise

Machine translation

This organisation has been machine-translated based on data provided in German.

	Research	Development	Manufacturing & Supply
Manufacturing process			
<i>Additive manufacturing</i>			
Coating (surface engineering) Galvanising, Painting, Powder coating			✓
<i>Fibre composite technology</i>			
<i>Forming</i>			
Joining Adhesive bonding, Soldering, Riveting, Screwing, Welding			✓
Material property alteration Mechanical treatment			✓
<i>Primary forming</i>			
Processing and separating Drilling, Turning, Milling, Sawing, Shearing/ punching, Grinding, Cutting			✓
<i>Textile technology</i>			

Overview of lightweighting expertise

Machine translation

This organisation has been machine-translated based on data provided in German.

	Research	Development	Manufacturing & Supply
Material			
Biogenic materials			
Cellular materials (foam materials)			
Composites			
Fibres			
Functional materials			
Metals			✓
Aluminium, Steel			
Plastics			
Structural ceramics			
(Technical) textiles
