

CarbonTT - Carbon Truck & Trailer GmbH

About this organisation

Machine translation

This organisation has been machine-translated based on data provided in German.

CarbonTT develops and manufactures structural components made of carbon fibre reinforced plastic (CFRP) for light commercial vehicles up to 4.25t GVW. Lightweight construction increases the payload and range of the vehicles while reducing CO2 emissions. Electric versions of the vehicles will be available from Q4 2017.

We are working on making CFRP components for the commercial vehicle and automotive industry economically viable. Our focus is on - Production-orientated component design - Cost-effective manufacturing processes - CFRP-metal interfaces and connections - Integration of components into the overall lightweight construction concept - Validation of hybrid structures

Airbusstrasse 1
21684 Stade
Lower Saxony
Germany

Organisation type

Small or medium-sized enterprise

Sector

Employees

10 up to 49

Turnover

n/a

Funding

CarbonTT - Carbon Truck & Trailer GmbH

About this organisation

Main areas covered Development & production of CFRP parts

Infrastructure

Certifications

Keywords Carbon fibre plastic CFRP, Hybrid, Chassis Chassis rear frame

Memberships

Overview of lightweighting expertise

Machine translation

This organisation has been machine-translated based on data provided in German.

	Research	Development	Manufacturing & Supply
Offer			
Products Parts and components, Systems and end products		✓	✓
Services & consulting Consulting, Testing and trials, Engineering, Prototyping		✓	✓

Overview of lightweighting expertise

Machine translation

This organisation has been machine-translated based on data provided in German.

	Research	Development	Manufacturing & Supply
Field of technology			
Design & layout Lightweight manufacturing, Lightweight design, Hybrid structures, Lightweight construction concepts		✓	✓
<i>Functional integration</i>			
<i>Measuring and testing technology</i>			
Modelling and simulation Loads & stress, Structural mechanics, Materials, Reliability validation		✓	✓
<i>Plant construction & automation</i>			
Recycling technologies Recycling			✓

Machine translation

This organisation has been machine-translated based on data provided in German.

	Research	Development	Manufacturing & Supply
Manufacturing process			
Additive manufacturing 3D printing			✓
<i>Coating (surface engineering)</i>			
Fibre composite technology Manual lamination, Resin infusion process, Resin transfer moulding, Vacuum infusion		✓	✓
<i>Forming</i>			
Joining Hybrid joining, Adhesive bonding, Riveting, Screwing, Welding		✓	✓
<i>Material property alteration</i>			
Primary forming Pultrusion		✓	✓
<i>Processing and separating</i>			
<i>Textile technology</i>			

Overview of lightweighting expertise

Machine translation

This organisation has been machine-translated based on data provided in German.

	Research	Development	Manufacturing & Supply
Material			
<i>Biogenic materials</i>			
Cellular materials (foam materials) Closed-pore, Open-pore		✓	✓
Composites Glass-fiber reinforced plastics (GFRP), Carbon-fiber reinforced plastics (CFRP)		✓	✓
Fibres Glass fibres, Carbon fibres		✓	✓
<i>Functional materials</i>			
<i>Metals</i>			
Plastics Thermoset plastics, Thermoplastics		✓	✓
<i>Structural ceramics</i>			
(Technical) textiles Yarns, rovings, Laid webs, Woven fabrics		✓	✓
