

About this organisation

Machine translation

This organisation has been machine-translated based on data provided in German.

The Helmholtz Centre Hereon conducts cutting-edge international research for a changing world: around 1,100 employees create knowledge and innovations for greater resilience and sustainability. Hereon's scientific spectrum includes high-performance materials, processes and environmentally friendly technologies for mobility and new energy systems.

Laser material processing for the development of resource-saving, environmentally friendly and economical processes and regeneration of operationally stressed structures, Increasing the service life of structures by improving their resistance to fatigue, corrosion and wear

Max-Planck-Str. 1
21502 Geesthacht
Schleswig-Holstein
Germany
