About this organisation

Machine translation

This organisation has been machine-translated based on data provided in German.

The Industrieverband Massivumformung e. V. (forging industry association) pools the interests of forging companies in Germany. Cars, aeroplanes, trains, construction machinery and ships - nothing drives, flies, rolls or floats without forged components. The most important individual technologies are upsetting, hot extrusion, cold extrusion, die forging, ring rolling and open-die forging. Germany is the technology leader.

Accompaniment of multiple research projects in the field of lightweight construction in automotive engineering in chassis, engine and transmission. Lightweight construction with forged steel parts. Monitoring and support of research projects in the field of new steel materials to achieve lightweight construction. Co-operation with the Steel Institute and FOSTA e. V. in Düsseldorf.

DEUTSCHE MASSIV UMFORMUNG

NEUE IDEEN SCHMIEDEN

Organisation type

Association, Chamber of industry and commerce

Others: Windkraftindustrie

Employees 10 up to 49

Turnover n/a

Funding

About this organisation			
Main areas covered	Lightweight construction initiative		
Infrastructure	New work from institutes Companies		
Certifications			
Keywords	Solid lightweight construction, Solid forming		
Memberships			

Overview of lightweighting expertise

Machine translation

This organisation has been machine-translated based on data provided in German.

	Research	N Development	lanufacturing & Supply
Offer			
Products			
Services & consulting Training, Consulting, Funding, Technology transfer	~	\checkmark	
Field of technology			
Design & layout			
Functional integration			
Measuring and testing technology			
Modelling and simulation			
Plant construction & automation			
Recycling technologies			

Machine translation			
This organisation has been machine-transla	ated based on data provid	led in German.	
	Research	Development	Manufacturin & Supply
Manufacturing process			
Additive manufacturing			
Coating (surface engineering)			
Fibre composite technology			
Forming Impact extrusion, Forging	~	\checkmark	
Joining			
Material property alteration			
Primary forming			
Processing and separating			

Overview of lightweighting expertise
