

About this organisation

Machine translation

This organisation has been machine-translated based on data provided in German.

Liebherr Verzahntechnik GmbH was founded in 1969 and, with several decades of experience, is one of the world's leading manufacturers of gear cutting machines, gear cutting tools and automation systems. The activities of the product division are coordinated in Kempten (Germany), which also functions as a production site. Further production sites are located in Europe, the USA and Asia.

In the field of gear cutting technology, the product portfolio includes gear hobbing machines, gear skiving machines, gear shaping machines, gear and profile grinding machines and gear cutting tools. In the field of automation systems, Liebherr offers a wide range of transport equipment for automatic loading and unloading processes, such as gantry systems, pallet handling systems, flexible cells and conveyor systems.
