

# CNC Stanz-und Lasertechnik GmbH

## About this organisation

### Machine translation

This organisation has been machine-translated based on data provided in German.

From the idea to the finished sheet metal part - products from CNC Ilsfeld are in demand in all industries where precisely processed sheet metal parts are required, whether as individual parts or in large series. They can be found in vehicles as well as in house construction, in production facilities or in design objects. We manufacture sheet metal parts and assemblies and realise the complete sheet metal processing from lasering, punching, bending, welding and deep drawing.

Development/production of semi-finished products, components/assemblies, final products

Renntalstraße 9-13  
74360 Ilsfeld  
Baden-Württemberg  
Germany

### Organisation type

Small or medium-sized enterprise

### Sectors

### Employees

50 up to 249

### Turnover

n/a

### Funding

### Main areas covered

Machine tools, Food technology

### Infrastructure

### Certifications

ISO 9001, ISO 14001

### Keywords

### Memberships

## Overview of lightweighting expertise

### Machine translation

This organisation has been machine-translated based on data provided in German.

	Research	Development	Manufacturing & Supply
<b>Offer</b>			
<b>Products</b> Parts and components, Machines and plants			✓
<b>Services &amp; consulting</b> Testing and trials, Engineering, Prototyping			✓
<b>Field of technology</b>			
<i>Design &amp; layout</i>			
<i>Functional integration</i>			
<i>Measuring and testing technology</i>			
<i>Modelling and simulation</i>			
<b>Plant construction &amp; automation</b> Plant construction, Automation technology			✓
<i>Recycling technologies</i>			

## Overview of lightweighting expertise

### Machine translation

This organisation has been machine-translated based on data provided in German.

	Research	Development	Manufacturing & Supply
<b>Manufacturing process</b>			
<b>Additive manufacturing</b> 3D printing, Selective laser melting (SLM, LPBF, ...), Selective laser sintering (SLS)			✓
<b>Coating (surface engineering)</b> Galvanising, Painting, Powder coating, Hot dipping			✓
<i>Fibre composite technology</i>			
<b>Forming</b> Bending, Compression moulding, Deep-drawing		✓	✓
<b>Joining</b> Clinching, Riveting, Screwing, Welding			✓
<i>Material property alteration</i>			
<i>Primary forming</i>			
<b>Processing and separating</b> Drilling, Turning, Milling, Sawing, Shearing/punching, Cutting			✓
<i>Textile technology</i>			

## Overview of lightweighting expertise

### Machine translation

This organisation has been machine-translated based on data provided in German.

	Research	Development	Manufacturing & Supply
<b>Material</b>			
<i>Biogenic materials</i>			
<i>Cellular materials (foam materials)</i>			
<i>Composites</i>			
<i>Fibres</i>			
<i>Functional materials</i>			
<b>Metals</b>			✓
Aluminium, Intermetallic alloys, Steel, Titanium			
<i>Plastics</i>			
<i>Structural ceramics</i>			
<i>(Technical) textiles</i>
