

## About this organisation

### Machine translation

This organisation has been machine-translated based on data provided in German.

Coriolis is a specialist in the development and implementation of robotic cells, including software, maintenance and service contracts, for fibre placement with a standard 6-axis robot. Coriolis offers a real economical and industrial solution with its exclusive systems, designed and developed for the composites industry.

Coriolis AFP technology is suitable for automotive applications due to its high productivity and its compatibility with more cost-effective materials - TowPreg, thermoplastic, dry carbon and glass fibre (heavy grade). Both thermoset, thermoplastic and dry fibres can be deposited on complex geometric surfaces. Coriolis accompanies the customer from the exploratory study to the finished application of the automated solution, followed by the service offer and a possible update of the system. The Coriolis technical centre, which is equipped with AFP systems and managed by a team of specialists, has been supporting our customers for more than 10 years. The technical centre is available to customers in every development phase of the project. Starting from TRL 2 up to TR L8 (Technology Readiness Level). Coriolis also offers preliminary studies, prototyping and training.

Am Technologiezentrum 5  
86159 Augsburg  
Bavaria  
Germany

### Organisation type

Small or medium-sized enterprise

### Sectors

### Employees

Up to 9

### Turnover

n/a

### Funding

# Coriolis Composites GmbH

## About this organisation

<b>Main areas covered</b>	Robot-assisted fibre placement
<b>Infrastructure</b>	CORIOLIS technical centre
<b>Certifications</b>	ISO 9001; JEC Innovation Award 2016
<b>Keywords</b>	AFP (Automated Fibre Placement), Software, Automation, Industrialisation, Thermoset, Thermoplastic
<b>Memberships</b>	

## Overview of lightweighting expertise

### Machine translation

This organisation has been machine-translated based on data provided in German.

	Research	Development	Manufacturing & Supply
<b>Offer</b>			
<b>Products</b> Parts and components, Machines and plants, Software & databases	✓	✓	✓
<b>Services &amp; consulting</b> Consulting, Testing and trials, Prototyping, Simulation, Maintenance and repair			✓

## Overview of lightweighting expertise

### Machine translation

This organisation has been machine-translated based on data provided in German.

	Research	Development	Manufacturing & Supply
<b>Field of technology</b>			
<i>Design &amp; layout</i>			
<i>Functional integration</i>			
<i>Measuring and testing technology</i>			
<i>Modelling and simulation</i>			
<b>Plant construction &amp; automation</b>			
Plant construction, Automation technology, Robotics	✓	✓	✓
<i>Recycling technologies</i>			
<b>Manufacturing process</b>			
<i>Additive manufacturing</i>			
<i>Coating (surface engineering)</i>			
<b>Fibre composite technology</b>			
Filament winding, Pre-preg processing, Others (Automated fibre placement)	✓	✓	✓
<i>Forming</i>			
<i>Joining</i>			
<i>Material property alteration</i>			
<i>Primary forming</i>			
<b>Processing and separating</b>			
Cutting			✓
<i>Textile technology</i>			

## Overview of lightweighting expertise

### Machine translation

This organisation has been machine-translated based on data provided in German.

	Research	Development	Manufacturing & Supply
<b>Material</b>			
<i>Biogenic materials</i>			
<i>Cellular materials (foam materials)</i>			
<b>Composites</b> Glass-fiber reinforced plastics (GFRP), Carbon-fiber reinforced plastics (CFRP), Laminates		✓	✓
<b>Fibres</b> Glass fibres, Carbon fibres, Natural fibres	✓	✓	✓
<i>Functional materials</i>			
<i>Metals</i>			
<b>Plastics</b> Thermoset plastics, Thermoplastics		✓	✓
<i>Structural ceramics</i>			
<i>(Technical) textiles</i>
