

About this organisation

Machine translation

This organisation has been machine-translated based on data provided in German.

The core of Imprintec from Bochum are innovative testing devices with which the yield strength and tensile strength of lightweight materials can be determined quickly and with minimal destruction.

The testing devices can be used to test lightweight materials such as aluminium or magnesium alloys, as well as steels and other metallic materials.

Universitätsstr. 142
44799 Bochum
North Rhine-Westphalia
Germany
