

## About this organisation

### Machine translation

This organisation has been machine-translated based on data provided in German.

System 180 develops and produces furniture for modern working and living environments. A consistent modular construction system forms the basis of the extensive product portfolio and customised design solutions.

The high stability of the modular tubular steel frameworks enables infill with lightweight materials for the functional elements on the one hand and the replacement of fixed elements with furniture on the other. For example, drywalls can be replaced by space-organising systems.

Ernst-Agustin-Str. 3  
12489 Berlin  
Berlin  
Germany

**SYSTEM 180**

### Organisation type

Small or medium-sized enterprise

### Sector

### Employees

50 up to 249

### Turnover

€2m - €10m

### Funding

### Main areas covered

Tubular steel framework, Lightweight tables

### Infrastructure

### Certifications

EMAS (EN 107-00169), GS-certified

### Keywords

Modular construction system, Tubular steel chassis

### Memberships

## Overview of lightweighting expertise

### Machine translation
