About this organisation

Machine translation

This organisation has been machine-translated based on data provided in German.

The AiF Research Alliance Lightweight Construction (FAL) is an association of 27 research organisations, primarily small and medium-sized enterprises (SMEs), which deal with issues of constructive and material-specific lightweight construction. The central objective is to strengthen the innovative power and competitiveness of SMEs. The following research associations (FV) are members of the FAL:

Heat treatment and materials technology working group Carbon Composites Lightweight Construction DECHEMA Society for Chemical Engineering and Biotechnology German FV for Measurement, Control and Systems Engineering FV Welding and Allied Processes of the DVS European Research Association for Sheet Metal Processing FV Automotive Engineering Association for the Research Institute for Precious Metals and Metal Chemistry Research Association for Refractories Research Association for Plastics Research Institute for Leather and Plastic Sheeting Research Board for Mechanical Engineering Textile Research Board FV Steel Application Association for the Promotion of the South German Plastics Centre Research Association for Steel Forming FV Drive Technology FV Foundry Technology FV of the plaster industry FV Programming languages for production facilities FV Shipbuilding and Marine Technology FV Combustion Engines Society for Corrosion Protection Institute for Plastics Processing at RWTH Aachen University Sponsoring organisation Institute for Wood Technology FV Materials from Sustainable Raw Materials Stifterverband Metals

About this organisation				
Main areas covered	Pre-competitive research, Industrial research, Knowledge and technology transfer			
Infrastructure	Research network			
Certifications				
Keywords	Industrial joint research, IGF, ZIM, Middle class, Economy, Science, Innovations, transfer			
Memberships	AiF e.V.			

Overview of lightweighting expertise **Machine translation** This organisation has been machine-translated based on data provided in German. Manufacturing Research Development & Supply Offer **Products** Parts and components, Semi-finished parts, Machines and plants, Software & databases, Systems and end products, Materials, Tools and moulds **Services & consulting** Training, Consulting, Testing and trials, Funding, Engineering, Standardisation, Prototyping, Validation, Simulation, Technology transfer, Maintenance and repair, Approval, Others (Research, OEKO-TEX certification)

his organisation has been machine-translated based on data provided in German.				
	Research	Nevelopment	Manufacturin & Supply	
Field of technology				
Design & layout Lightweight manufacturing, Lightweight design, Hybrid structures, Lightweight construction concepts, Lightweight material construction	~	✓	✓	
Functional integration Actuator technology, Sensor technology, Thermal activation, Material functionalisation	✓	~		
Measuring and testing technology Component and part analysis, Visual analysis (e.g. microscopy, metallography), System analysis, Environmental simulation, Materials analysis, Destructive analysis, Non-destructive analysis	✓	✓	✓	
Modelling and simulation Crash behaviour, Loads & stress, Life-cycle analysis, Multiphysics simulation, Optimisation, Processes, Structural mechanics, Materials, Reliability validation	✓	✓		
Plant construction & automation Plant construction, Automation technology, Handling technology, Robotics	~	✓

Overview of lightweighting expertise **Machine translation** This organisation has been machine-translated based on data provided in German. Manufacturing Research **Development** & Supply Manufacturing process **Additive manufacturing** 3D printing, Deposition welding, Electron beam melting, Laminated object manufacturing (LOM), Fused deposition modeling, Selective laser melting (SLM, LPBF, ...), Selective laser sintering (SLS), Stereolithography, Others (Wire Arc Additive Manufacturing (WAAM), fluid deposition modelling, hybrid combination of additive and subtractive manufacturing, material behaviour) **Coating (surface engineering)** Galvanising, Painting, Plasma process, Powder coating, Hot dipping, Others (Build-up welding, thermal spraying, flame treatment, laser pretreatment, vacuum suction blasting, priming) Fibre composite technology Fibre spraying, Filament winding, Casting (concrete), Manual lamination, Resin infusion process, Resin transfer moulding, Prepreg processing, Vacuum infusion, Others (Liquid impregnation processes (RTM, gap impregnation), forming of organic sheets and UD laminates, UD tape production, pultrusion, impact extrusion (SMC/GMT), back injection moulding, repair processes) **Forming** Bending, Impact extrusion, Compression moulding, Forging, Stretch forming, Thermal converting, Deep-drawing, Fluid active media based forming, Rolling **Joining** Clinching, Hybrid joining, Adhesive bonding, Soldering, Sewing, Riveting, Screwing, Welding, Others (Garnish) Material property alteration leichtb Methadrical treatment, Thermochemical Page 4 of 6

treatment, Thermomechanical treatment, Heat

Overview of lightweighting expertise **Machine translation** This organisation has been machine-translated based on data provided in German. Manufacturing Research Development & Supply Material **Biogenic materials** Bioplastics, Biocomposites, Wood Cellular materials (foam materials) Closed-pore, Open-pore, Syntactic foams Composites Aramid fibre composites, Basalt fibre-reinforced plastic, Glass-fiber reinforced plastics (GFRP), Ceramic matrix composite (CMC), Carbon-fiber reinforced plastics (CFRP), Metal-fibre-polymer composite, Metal-ceramic composite, Metal matrix composite, Nanocomposites, Natural fibre reinforced plastics (NFRP), Laminates, Particulate composites, Textile-reinforced concrete, Others (Steel-concrete composite, fibre-reinforced wood materials) **Fibres** Aramid fibres, Basalt fibres, Glass fibres, Ceramic fibres, Carbon fibres, Metal fibres, Natural fibres **Functional materials** Electrostrictive / magnetostrictive materials, Shape memory materials, Piezoelectric materials Metals Aluminium, Intermetallic alloys, Magnesium, Steel, Titanium, Others (Copper, iron casting, copper casting, zinc die casting, nickel-based alloys) **Plastics** Thermoset plastics, Elastomers, Thermoplastics, Others (Viscoelastic polymer materials) Structural ceramics Non-oxidic ceramics, Oxidic ceramics, Ultra-

Page 5 of 6

leichtbaighatemperature ceramics, Others (Fibre-

reinforced ceramics (CMC), hybrid components)
