

About this organisation

Machine translation

This organisation has been machine-translated based on data provided in German.

d-fine is a European consultancy specialising in analytical, technological and quantitative issues. We support clients from industry, the energy sector, finance and insurance in the modelling of quantitative problems, the solution of challenging technical and IT tasks and the digitalisation of business processes.

Together with partners from the fields of forming technology and additive manufacturing, we develop customised solutions for industrial manufacturing processes. These include, for example, data platforms and blockchain applications for the cross-company exchange of production data, as well as high-performance AI solutions for real-time processes in industrial quality control.

An der Hauptwache 7
