

R.PLAST Kunststoffaufbereitungs- und Handels-GmbH

About this organisation

Machine translation

This organisation has been machine-translated based on data provided in German.

R.PLAST is a recycling and trading company for thermoplastic primary and secondary plastics. We have been recycling thermoplastics for over 25 years. We do this by producing and distributing high-quality regrinds, agglomerates, regranulates and compounds from clean, unmixed production residues from the plastics manufacturing and processing industry.

Our focus is on polypropylene and PP-based plastic compounds. We also offer our services to third parties. The following products pass through our circle: PP, PP/TPE, PP/PE, PP/EPDM, PP/SBS, PP/ALU, EPP, TPO - in the form of bumpers, bottles, start-up lumps, missing parts from production, closures, (thermoforming) films, nonwovens, profiles, filters, sprues, sheets and similar forms.

Rückertstraße 28
97421 Schweinfurt

R.PLAST Kunststoffaufbereitungs- und Handels-GmbH

About this organisation

Main areas covered	PP particle foam recycling, Post-industrial recycling, High-quality regranulates, Fast-flowing PP regranulates, Single-variety regrind made of PP, HDPE
Infrastructure	Compacting - Logistics optimisation, Recycling plant, Materials testing, Functioning supply chain, Established sales channels
Certifications	ISO 14001, EMAS, Specialised waste management company, EuCertPlast
Keywords	Plastic recycling, Post-industrial recycling, Circular economy concepts, PP particle foam, PP nonwoven/fibre recycling
Memberships	Environment + Climate Pact Bavaria, TecPart, TecPart Code of Conduct

Overview of lightweighting expertise
