

## About this organisation

### Machine translation

This organisation has been machine-translated based on data provided in German.

ArcelorMittal Construction supplies a market-driven range of thin-walled structural elements made of steel or steel in a laminated composite system with rigid polyurethane foam for roofs, walls and ceilings that is unique in Europe in terms of its variety, performance and availability.

Research, development and production of roof and wall panels in a layered composite of steel cover sheets and rigid polyurethane foam.

Münchener Str. 2  
06796 Sandersdorf-Brehna  
Saxony-Anhalt  
Germany
