

## About this organisation

### Machine translation

This organisation has been machine-translated based on data provided in German.

Siemens is a conglomerate with a focus on automation and digitalisation in industry, infrastructure for buildings, decentralised energy systems, mobility solutions for rail and road transport and medical technology.

New, innovative materials from the product idea to production. Software and hardware - from design and engineering to end-to-end automation of the production process. Automation of manufacturing processes: Textile (e.g. fibre production, surface formation), forming technology (e.g. hydraulic presses), plastics (e.g. extrusion, thermoforming), CNC machining (e.g. milling, grinding). Reduced process cycles, continuous automation, high energy efficiency.

Weissacher Straße 11  
70499 Stuttgart  
Baden-Württemberg  
Germany

# SIEMENS

### Organisation type

Large enterprises

### Sectors

### Employees

500 and more

### Turnover

More than €50m

### Funding

### Main areas covered

Automation, Digitisation, Textile, Forming technology, CNC machining

### Infrastructure

### Certifications

### Keywords

### Memberships

Lightweight construction BW

## Overview of lightweighting expertise

### Machine translation

This organisation has been machine-translated based on data provided in German.

	Research	Development	Manufacturing & Supply
<b>Offer</b>			
Products			
Services & consulting			
<b>Field of technology</b>			
Design & layout			
Functional integration			
Measuring and testing technology			
<b>Modelling and simulation</b>			✓
Optimisation, Processes			
Plant construction & automation			
Recycling technologies			
<b>Manufacturing process</b>			
Additive manufacturing			
Coating (surface engineering)			
Fibre composite technology			
Forming			
Joining			
Material property alteration			
Primary forming			
<b>Processing and separating</b>			✓
Milling, Grinding			
Textile technology			

Overview of lightweighting expertise
