About this organisation

Machine translation

This organisation has been machine-translated based on data provided in German.

As part of the AZL partnership, AZL Aachen GmbH facilitates close cooperation between the AZL partner institutes of RWTH Aachen University and an industrial network of more than 80 companies along the entire value chain of lightweight construction production. In addition to intensive networking, the companies from more than 19 countries co-operate in workgroups, joint research projects and joint business development.

As a service provider in the field of lightweight construction, AZL Aachen GmbH offers industrial engineering services in the form of studies and benchmarks, technology consulting and R&D projects.
