

LASCO Umformtechnik GmbH

Project planning and design

About this organisation

Machine translation

This organisation has been machine-translated based on data provided in German.

LASCO supplies machine tools, production systems and automation technology for sheet metal and solid forming, powder metallurgy and building materials production. We develop, design, manufacture and deliver to over 60 countries. With over 150 years of experience, we find and realise the optimum solution for individual requirements. This applies to machine plant construction and automation as well as to the modernisation of existing systems.

For more than ten years, LASCO has been able to acquire a high level of expertise in the field of fully automated forging lines for the production of aluminium chassis parts.

Hahnweg 139
96450 Coburg
Bavaria
Germany

Organisation type

Large enterprises

Sectors

Employees

250 up to 499

Turnover

More than €50m

Funding

LASCO Umformtechnik GmbH

Project planning and design

About this organisation

Main areas covered Machine for multiaxial forming, Process development, Machines for aluminium forming, Machines for titanium forming, Machines for hot sheet metal forming

Infrastructure

Certifications ISO 9001 : 2015

Keywords Aluminium forging, Preforming units, Steering knuckle, Wheel carrier, Screw presses

Memberships

Overview of lightweighting expertise

Machine translation

This organisation has been machine-translated based on data provided in German.

	Research	Development	Manufacturing & Supply
Offer			
Products Machines and plants		✓	✓
Services & consulting Consulting, Engineering, Simulation, Maintenance and repair		✓	✓

Overview of lightweighting expertise

	Research	Development	Manufacturing & Supply
Field of technology			
<i>Design & layout</i>			
<i>Functional integration</i>			
<i>Measuring and testing technology</i>			
<i>Modelling and simulation</i>			
Plant construction & automation Plant construction, Automation technology, Handling technology, Robotics		✓	✓
<i>Recycling technologies</i>			
Manufacturing process			
<i>Additive manufacturing</i>			
<i>Coating (surface engineering)</i>			
<i>Fibre composite technology</i>			
Forming Bending, Impact extrusion, Compression moulding, Forging, Deep-drawing, Rolling		✓	✓
<i>Joining</i>			
<i>Material property alteration</i>			
<i>Primary forming</i>			
<i>Processing and separating</i>			
<i>Textile technology</i>			

Overview of lightweighting expertise

Machine translation

This organisation has been machine-translated based on data provided in German.

	Research	Development	Manufacturing & Supply
Material			
Biogenic materials Biocomposites		✓	✓
<i>Cellular materials (foam materials)</i>			
Composites Carbon-fiber reinforced plastics (CFRP), Metal-fibre-polymer composite, Textile-reinforced concrete		✓	✓
Fibres Carbon fibres		✓	✓
<i>Functional materials</i>			
Metals Aluminium, Intermetallic alloys, Magnesium, Steel, Titanium		✓	✓
<i>Plastics</i>			
<i>Structural ceramics</i>			
<i>(Technical) textiles</i>
