

About this organisation

Machine translation

This organisation has been machine-translated based on data provided in German.

FibreCoat GmbH from Aachen specialises in the development and production of fibre-based high-performance materials. With a patented process for the direct coating of glass and basalt fibres, FibreCoat offers an energy- and cost-efficient solution for the production of bicomponent multifilament yarns with outstanding properties in terms of mechanical stability and electrical conductivity.

Bi-component multifilament yarns with basalt or glass cores and metallic sheathing are the ideal starting point for the development of weight-reduced, high-strength and electrically conductive components for use in the aerospace, lightweight construction and mobility sectors as well as other industrial sectors.

Philipsstr. 8
52068 Aachen
North Rhine-Westphalia
Germany
fibrecoat.de/

Organisation type

Small or medium-sized enterprise

Sectors

No specific sector

Employees

10 up to 49

Turnover

€2m - €10m

Funding

Main areas covered

Aluminium coated fibres, Metal coated fibres, Polymer coated fibres

Infrastructure

Glass fibre spinning systems

Certifications

Keywords

Memberships

Overview of lightweighting expertise
