

Automatic-Systems Dreher GmbH

About this organisation

Machine translation

This organisation has been machine-translated based on data provided in German.

Automatic-Systeme Dreher GmbH is the leading system supplier for automation solutions in the field of forming production processes. With a team of around 200 highly qualified employees, DREHER Automation plans, develops and automates forming systems, especially forming presses for sheet metal and solid forming. The company is the point of contact for innovative automation solutions for a wide range of forming processes.

As part of the BMWK-funded AddUp research project, Automatic-Systeme Dreher GmbH is looking into the use of lightweight components in its automation systems (key words: mass optimisation, increased stroke rate, energy savings per manufactured part).

Karl Drais Straße 1
72172 Sulz a. N.
Baden-Württemberg
Germany
