Berlin University of Technology
Chair of Sustainable Engineering

About this organisation

The Department of Sustainable Engineering at TU Berlin researches data sets, methods and tools for the scientific evaluation of the sustainability of technologies, products and services.

We evaluate the sustainability of lightweight construction concepts

Organisation type
University or higher education institution

Sectors
No specific sector

Employees
10 up to 49

Turnover
Up to €2m

Funding
n/a

Main areas covered	Life cycle assessments, resources
Infrastructure	
Certifications	
Keywords	
Memberships	

Berlin University of Technology
Chair of Sustainable Engineering

Overview of lightweighting expertise

Machine translation

This organisation has been machine-translated based on data provided in German.

	Research	Development	Manufacturing & Supply
Offer			
Products			
Services & consulting Consulting	✓		
Field of technology			
Design & layout			
Functional integration			
Measuring and testing technology			
Modelling and simulation			
Plant construction & automation			
Recycling technologies			
Manufacturing process			
Additive manufacturing			
Coating (surface engineering)			
Fibre composite technology			
Forming			
Joining			
Material property alteration			
Primary forming			
Processing and separating			
Textile technology
