## About this organisation

### Machine translation

This organisation has been machine-translated based on data provided in German.

thyssenkrupp Hohenlimburg GmbH is a manufacturer of hot-rolled steel strip, which is used as a pre-material in the cold-rolling industry and also in direct processing, mainly in the automotive supply industry. thyssenkrupp Hohenlimburg GmbH is part of thyssenkrupp Steel Europe AG and employs around 900 people at the Hagen site.

High-strength steels as well as unalloyed and alloyed heat-treatable steels are the basis for many sophisticated solutions in vehicle construction. The continuous further development of steel grades is an elementary building block towards new innovative lightweight construction solutions. thyssenkrupp Hohenlimburg GmbH develops and manufactures these materials from hot-rolled strip steel. The materials development department has access to its own laboratories for material characterisation, and thyssenkrupp Hohenlimburg GmbH is also integrated into the Group and the development network of thyssenkrupp Steel Europe AG.

Oeger Str. 120  
58119 Hagen  
North Rhine-Westphalia

### Organisation type

Large enterprises

### Sectors

Others:

### Employees

500 and more

### Turnover

More than €50m

### Funding

# thyssenkrupp Hohenlimburg GmbH

## About this organisation

<b>Main areas covered</b>	Hot band, Centre band, Hot rolled steel strip, Heat treatment of steels
<b>Infrastructure</b>	Mechanical material testing, Metallography, Application technology
<b>Certifications</b>	IATF 16949:2016, DIN EN ISO/IEC 17025:2018, Directive 2014/68/E, DIN ISO 45001:2018, DIN EN ISO 50001:2018
<b>Keywords</b>	Steel, Hot band, Material
<b>Memberships</b>	

## Overview of lightweighting expertise
