Hansemold GmbH

About this organisation

Machine translation

This organisation has been machine-translated based on data provided in German.

Hansemold is a manufacturer of prototypes and small series using injection moulding and 3D printing.

Hansemold is a company that specialises in rapid tooling. From the production of your mould to the finished small series or your prototype, everything takes place in-house. We support your entire project, taking into account the requirements of toolmaking, production and assembly. We would like to develop solutions with you and respond innovatively and flexibly to your wishes in order to achieve the best possible results.
