

MABRI.VISION GmbH

MABRI.VISION GmbH

About this organisation

We develop, manufacture and supply turnkey inspection systems for demanding products and rapidly growing future markets. Proven application fields include optical inspection of power electronics in e-mobility, microfluidic diagnostic chips in the health care sector, and reading codes on product surfaces.

We inspect product surfaces of semi-finished or finished components, automating your defect detection and shape inspection.

Organisation type

Small or medium-sized enterprise

Sectors

Employees

10 up to 49

Turnover

€2m - €10m

Funding

n/a

Main areas covered

Optical Inline Quality Control

Infrastructure

Certifications

Keywords

Optical Metrology, Inline Quality Control

Memberships

Overview of lightweighting expertise

	Research	Development	Manufacturing & Supply
Offer			
Products Machines and plants, Software & databases, Systems and end products		✓	✓
<i>Services & consulting</i>			
Field of technology			
<i>Design & layout</i>			
<i>Functional integration</i>			
Measuring and testing technology Component and part analysis, Visual analysis (e.g. microscopy, metallography), Non- destructive analysis		✓	✓
<i>Modelling and simulation</i>			
Plant construction & automation Automation technology, Robotics		✓	✓
<i>Recycling technologies</i>			
Manufacturing process			
<i>Additive manufacturing</i>			
<i>Coating (surface engineering)</i>			
<i>Fibre composite technology</i>			
<i>Forming</i>			
<i>Joining</i>			
<i>Material property alteration</i>			
<i>Primary forming</i>			
<i>Processing and separating</i>			
<i>Textile technology</i>
