About this organisation

Machine translation

This organisation has been machine-translated based on data provided in German.

With its 1,000 employees in Germany, France and China, the Mendritzki Group develops and produces customised solutions - from steel strip to ready-to-install components - for use in the automotive, industrial, agricultural and forestry sectors.

The Mendritzki Group's core expertise lies in the selection and processing of steel materials for use as formed, stamped, fineblanked and heat-treated components. High-strength and wear-resistant grades produced by heat treatment play a special role here. Fields of application include automotive engineering, industrial applications and harvesting technology.
