

Chem-Trend (Germany) GmbH - Composites

Chem-Trend (Deutschland) GmbH

About this organisation

Chem-Trend is the most proven partner in the world for release agents, purging compounds and other process chemical specialties. Chem-Trend Chem-Trend is dedicated to improving production efficiency, and minimizing the impact on the environment for its customers. As part of Freudenberg Chemical Specialties GmbH, Chem-Trend has a global network of experienced experts in research, production and technology.

Chemlease und Zyxax products are enabler for the Compositeindustry to manufacture efficiently with lowest possible contaminations and maetrial costs. Our products do match with all common productuion techniques and technologies.

Overview of lightweighting expertise

	Research	Development	Manufacturing & Supply
Offer			
Products Materials	✓	✓	✓
Services & consulting Consulting, Testing and trials	✓	✓	✓
Field of technology			
Design & layout			
Functional integration			
Measuring and testing technology			
Modelling and simulation			
Plant construction & automation			
Recycling technologies			
Manufacturing process			
Additive manufacturing			
Coating (surface engineering)			
Fibre composite technology			
Forming Compression moulding, Extrusion moulding, Thermal converting, Deep-drawing, Fluid active media based forming			✓
Joining			
Material property alteration			
Primary forming			
Processing and separating Others			✓
Textile technology
