

About this organisation

Machine translation

This organisation has been machine-translated based on data provided in German.

As a medium-sized family business, we offer you innovative and reliable products in the field of spraying technology for die casting foundries as well as automation technology and special machines. Since its foundation by Dipl.-Ing. Rudolf Wollin in 1973, Wollin has stood for optimum solutions in the field of die casting of light metal parts.

Highly specialised spraying technology makes it possible to produce very complex and thinner-walled components. This leads to new application possibilities in lightweight construction.

Kiesäckerstraße 23
73547 Lorch
Baden-Württemberg
Germany

Organisation type

Small or medium-sized enterprise

Sector

Others: Sprühtechnologie
für Druckgiessereien sowie
Automatisierungstechnik und
Sondermaschinen

Employees

50 up to 249

Turnover

n/a

Funding

n/a

About this organisation

Main areas covered Die-cast aluminium, Spray technology, Automation technology, Special machines

Infrastructure

Certifications ISO 9001:2015

Keywords

Memberships VDMA, BDGuss
