

POLAR-FORM Werkzeugbau GmbH

About this organisation

Machine translation

This organisation has been machine-translated based on data provided in German.

Toolmaking

Research project with the aim of simplifying the production of lightweight components and saving CO2. The aim is to completely eliminate release agents in the production of lightweight components by using permanent mould coatings.

Karl-Kammer-Str. 11
77933 Lahr
Baden-Württemberg
Germany

Organisation type

Small or medium-sized enterprise

Sectors

No specific sector

Employees

50 up to 249

Turnover

€2m - €10m

Funding

n/a

Main areas covered

Simplify the production of lightweight components

Infrastructure

Certifications

DIN EN ISO 9001:2015

Keywords

Tool and mould making

Memberships

wvib, IHK Southern Upper Rhine, VDWF

Overview of lightweighting expertise

Machine translation

This organisation has been machine-translated based on data provided in German.

Research Development **Manufacturing
& Supply**

Offer

Products

Services & consulting

Field of technology

Design & layout

Functional integration

Measuring and testing technology

Modelling and simulation

Plant construction & automation

Recycling technologies

Manufacturing process

Additive manufacturing

Coating (surface engineering)

Fibre composite technology

Forming

Joining

Material property alteration

Primary forming

Processing and separating

Textile technology
